# **Technical Data Sheet**

## InVivoMAb anti-rat IgG1

<u>Attention</u>: Use of this product constitutes an agreement to Bio X Cell's Terms and Conditions which are included with this product in print and can also be found at <a href="https://bioxcell.com/terms-and-conditions">https://bioxcell.com/terms-and-conditions</a>.

# Lot Specific Information

Lot Number: Lot Specific\*
Volume: Lot Specific\*

Concentration: Lot Specific\* (generally 4 to 11 mg/ml) \*

Total Protein: Lot Specific\*

\*This information will be noted on the certificate of analysis that ships with this product.

### **Product Information**

 Catalog Number:
 BE0250

 Clone:
 RG11/39.4

 Isotype:
 Mouse IgG2c, κ

Recommended Isotype Control(s): InVivoMAb mouse IgG2c isotype control, anti-dengue virus

**Recommended Dilution Buffer:** InVivoPure pH 7.0 Dilution Buffer

Immunogen: Rat lgG1

**Reported Applications:** Flow cytometry **Formulation:** PBS, pH 7.0

Contains no stabilizers or preservatives

**Endotoxin:** <2EU/mg (<0.002EU/μg)

Determined by LAL gel clotting assay

**Purity:** >95%

Determined by SDS-PAGE

Sterility: 0.2 µm filtered

**Production:** Purified from cell culture supernatant in an animal-free facility

Purification: Protein A

RRID: AB\_2687731

Molecular Weight: 150 kDa

### **Description**

The RG11/39.4 monoclonal antibody reacts with the Fc region of rat lgG1. It is commonly used as a secondary antibody to detect rat lgG1 antibodies in various diagnostic applications.

#### Storage

Store at the stock concentration at 4°C. **Do not freeze.** 

It is not uncommon for a floccule or precipitate to appear during storage. The floccule is typically buffer salts precipitating out of solution or a small bit of protein aggregation. For information on how to remove floccules or precipitates see our FAQ's at <a href="https://bioxcell.com/faqs">https://bioxcell.com/faqs</a>.

#### **Protocol Information**

Since applications vary, each investigator should use the application references as a guide to help estimate the appropriate dose or concentration. The dose or concentration can be further optimized experimentally in a dose response or titration experiment.
