

Technical Data Sheet

InVivoPure Reconstitution Buffer A

bioxcell.com

Attention: Use of this product constitutes an agreement to Bio X Cell's Terms and Conditions which are included with this product in print and can also be found at <https://bioxcell.com/terms-and-conditions>.

Lot Specific Information

Lot Number: Lot Specific*
Volume: 50 ml
Concentration: 1x

*This information will be noted on the certificate of analysis that ships with this product.

Product Information

Catalog Number: IP0010
Endotoxin: ≤ 0.5 EU/mL (≤ 0.0005 EU/ μ L). Endotoxin level is determined using an LAL gel clotting test
Sterility: 0.2 μ M filtered
Composition: 10mM Hydrochloric acid (HCl). This buffer does not contain calcium, magnesium, phenol red, or preservatives such as azide. Keep contents sterile. Open only in a biological safety cabinet.

Description

Reconstitution solution A (10 mM HCl) for resuspension of lyophilized proteins. AOF and carrier protein-free.

Storage

Store at the stock concentration at 4°C . **Do not freeze.**

It is not uncommon for a floccule or precipitate to appear during storage. The floccule is typically buffer salts precipitating out of solution or a small bit of protein aggregation. For information on how to remove floccules or precipitates see our FAQ's at <https://bioxcell.com/faqs>.

Protocol Information

Since applications vary, each investigator should use the application references as a guide to help estimate the appropriate dose or concentration. The dose or concentration can be further optimized experimentally in a dose response or titration experiment.
