

# Technical Data Sheet

## InVivoSIM anti-human CD20 (Ofatumumab Biosimilar)

**Attention:** Use of this product constitutes an agreement to Bio X Cell's Terms and Conditions which are included with this product in print and can also be found at <https://bioxcell.com/terms-and-conditions>.

### Lot Specific Information

**Lot Number:** Lot Specific\*  
**Volume:** Lot Specific\*  
**Concentration:** Lot Specific\* (generally 4 to 11 mg/ml) \*  
**Total Protein:** Lot Specific\*

\*This information will be noted on the certificate of analysis that ships with this product.

### Product Information

<b>Catalog Number:</b>	<b>SIM0089</b>
<b>Clone:</b>	<b>Ofatumumab</b>
<b>Isotype:</b>	Human IgG1, $\kappa$
<b>Recommended Isotype Control(s):</b>	RecombiMAb human IgG1 isotype control, anti-hen egg lysozyme
<b>Recommended Dilution Buffer:</b>	InVivoPure pH 7.0 Dilution Buffer
<b>Immunogen:</b>	Human CD20
<b>Reported Applications:</b>	<i>in vivo</i> functional assays <i>in vitro</i> functional assays Flow cytometry ELISA
<b>Formulation:</b>	pH 7.0 Contains no stabilizers or preservatives
<b>Endotoxin:</b>	<0.5EU/mg (<0.0005EU/ $\mu$ g) Determined by LAL gel clotting assay
<b>Purity:</b>	>95% Determined by SDS-PAGE
<b>Sterility:</b>	0.2 $\mu$ m filtration
<b>Production:</b>	Purified from cell culture supernatant in an animal-free facility
<b>Purification:</b>	Protein A
<b>Aggregation:</b>	<5% Determined by SEC
<b>RRID:</b>	
<b>Molecular Weight:</b>	150 kDa

### Murine Pathogen Test Results

Mouse Norovirus: Negative, Mouse Parvovirus: Negative, Mouse Minute Virus: Negative, Mouse Hepatitis Virus: Negative, Reovirus Screen: Negative, Lymphocytic Choriomeningitis virus: Negative, Lactate Dehydrogenase-Elevating Virus: Negative, Mouse Rotavirus: Negative, Theiler's Murine Encephalomyelitis: Negative, Ectromelia/Mousepox Virus: Negative, Hantavirus: Negative, Polyoma Virus: Negative, Mouse Adenovirus: Negative, Sendai Virus: Negative, Mycoplasma Pulmonis: Negative, Pneumonia Virus of Mice: Negative, Mouse Cytomegalovirus: Negative, K Virus: Negative

### Description

This non-therapeutic biosimilar antibody uses the same variable regions as the therapeutic antibody Ofatumumab, making it ideal for research use. Ofatumumab is a fully human IgG1 monoclonal antibody that specifically targets CD20, a B cell surface antigen expressed from the pre-B to mature B cell stage but not on plasma cells. CD20 plays a critical role in B cell development, activation, and proliferation. By binding to a unique membrane-proximal epitope on CD20, Ofatumumab

induces B cell depletion through complement-dependent cytotoxicity (CDC) and antibody-dependent cellular cytotoxicity (ADCC). This Ofatumumab biosimilar is well suited for studying B cell-mediated diseases, CD20 biology, and the immunologic mechanisms of B cell depletion in autoimmune disease and cancer.

## Storage

Store at the stock concentration at 4°C . **Do not freeze.**

It is not uncommon for a floccule or precipitate to appear during storage. The floccule is typically buffer salts precipitating out of solution or a small bit of protein aggregation. For information on how to remove floccules or precipitates see our FAQ's at <https://bioxcell.com/faqs>.

## Protocol Information

Since applications vary, each investigator should use the application references as a guide to help estimate the appropriate dose or concentration. The dose or concentration can be further optimized experimentally in a dose response or titration experiment.
